Do you work with an HVRP agency and have thoughts on how this program fits into the movement to end veteran homelessness? All HVRP staff are encouraged to attend this listening session: “HVRP Deeper Dive: A Listening Session with DOL-VETS.” DOL VETS will be initiating a series of discussions over the next 4-6 months, starting with this session, to review the strengths of the current program, its alignment with other programs serving homeless veterans, and opportunities for improvement. Come prepared to discuss program elements such as service population, program structure and performance, service delivery, data collection, and reporting. The HVRP program is poised to receive an increase in funding for FY 17 bringing it to the full authorization of \$50 million. As we move toward that milestone, we want to take the opportunity to reflect on what is right with the program, and to consider what adjustments we might make in the program prior to the 2017 program year.
